Seyni Diawara is affiliated with USTTB Bamako (University of Sciences, Techniques and Technologies) and focuses on African Studies research in Africa.

Oumar Traoré is affiliated with Department of Interdisciplinary Studies, University of Bamako (consolidated) and focuses on African Studies research in Africa.

Abstract

Digital inclusion dynamics in rural communities of Mali have been a subject of increasing scholarly interest due to the continent's rapid digital transformation. A comprehensive literature review will be conducted to identify existing theories and empirical studies on digital inclusion in Africa, with a specific focus on Mali. The theoretical framework will highlight the importance of socio-economic status, infrastructure development, and digital literacy programmes in bridging the digital divide. Policy recommendations include prioritising rural broadband expansion and investing in community-driven digital education initiatives.
