*Chinedu Nwachukwu is affiliated with University of Ibadan and focuses on Education research in Africa.*

### **Abstract**

In recent years, education policies in Nigeria have undergone significant reforms aimed at improving educational outcomes. The analysis is based on a review of existing literature and reports from various educational stakeholders, focusing on recent policy documents and their impact over time. While significant progress has been made, challenges such as teacher training and resources remain critical areas for improvement. Further investment should be directed towards enhancing teacher competencies and ensuring equitable access to quality education across all regions.
