## Abstract

Africentric linguistics explores the linguistic structures of African languages with a focus on cultural specificity and diversity. Theoretical analysis based on existing literature and expert insights from Guinea. This framework provides a robust foundation for future research into Guinean linguistic diversity and its significance in Afro-Linguistics. Further empirical studies are recommended to validate these theoretical insights.

**Keywords:** *African geography, Afro-asiatic, linguistic typology, cultural specificity, cross-cultural linguistics, ethnolect, creolistics*

## ABSTRACT-ONLY PUBLICATION

This is an abstract-only publication. The complete research paper with full methodology, results, discussion, and references is available upon request.
