## Author notes

*Oumar Sallafine is affiliated with Department of Interdisciplinary Studies, African Institute for Mathematical Sciences (AIMS) Senegal and focuses on Arts & Humanities research in Africa.*

## Abstract

This theoretical framework article aims to explore the philosophical foundations of Senegal, a country with rich cultural and artistic traditions that intersect with global ethical debates. No empirical data was collected; instead, the article employs critical analysis of existing literature on Senegalese cultural practices and philosophical thought. The theoretical framework identifies key philosophical concepts central to Senegalese culture, offering a basis for further research into their intersection with global ethical debates. Future research should explore how these philosophical themes can inform contemporary global ethical issues and contribute to cross-cultural understanding.
