Mengiste Wondimu is affiliated with Department of Interdisciplinary Studies, Addis Ababa University and focuses on Business research in Africa.

Abebaw Feyisa is affiliated with Department of Advanced Studies, Addis Ababa University and focuses on Business research in Africa.

Yared Desta is affiliated with Adama Science and Technology University (ASTU) and focuses on Business research in Africa.

Abstract

Industrial zones in Ethiopian towns face significant waste management challenges that threaten both environmental health and economic productivity. A systematic literature review will be conducted to identify existing frameworks and gaps in industrial zone waste management practices. The theoretical framework will provide a comprehensive guide for policymakers, practitioners, and researchers aiming to enhance sustainable industrial development in Ethiopia. Policymakers should prioritise the implementation of green infrastructure projects alongside waste reduction strategies to achieve holistic environmental improvements.

Keywords: *Sub-Saharan, industrialization, sustainability, □ □ □ □, green economy, stakeholder analysis, eco-industrial parks*

ABSTRACT-ONLY PUBLICATION

This is an abstract-only publication. The complete research paper with full methodology, results, discussion, and references is available upon request.
