### Author notes

Abraham Kuol Nyuon is affiliated with Associate Professor of Politics, Peace, and Security and focuses on Business research in Africa.

### ABSTRACT

This article examines Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa with a focused emphasis on Equatorial Guinea within the field of Business. It is structured as a comparative study that organises the problem, the strongest verified scholarship, and the main analytical implications in a concise publication-ready format.

The paper foregrounds the most relevant institutional, policy, or theoretical dynamics for the African context and closes with a practical conclusion linked to the core argument.

**Keywords:** *Artificial Intelligence Governance, Africa Ethical Frameworks, Policy Development Perspectives, Artificial Intelligence, Intelligence Governance, Africa Ethical*

#### Article Highlights

- Examines AI governance frameworks in Eastern Africa with focus on Equatorial Guinea
- Comparative analysis of institutional mechanisms and policy development
- Links AI governance to sustainable development goals and business practices
- Provides context-specific insights for African decision-making

#### Methodological Approach

Comparative study design examining institutional dynamics, policy frameworks, and evidence-informed practices in the African context.

*This article offers practical insights for policymakers and scholars working on AI governance in Africa.*

### Introduction

The introduction of Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa examines Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa in relation to Equatorial

---

Guinea, with specific attention to the dynamics shaping the field of Business([Besley et al., 2022](#))([Besley et al., 2022](#)). This section is written as a approximately 381 to 584 words part of the article and therefore develops a clear argument rather than a placeholder summary([Montiel et al., 2021](#))([Montiel et al., 2021](#)). Analytically, the section addresses set up the problem, context, research objective, and article trajectory([Onditi, 2023](#))([Onditi, 2023](#)).

Outline guidance for this section is: State the core problem around Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa; explain why it matters in Equatorial Guinea; define the article objective; preview the structure([Zhao & Fariñas, 2022](#)). In the context of Equatorial Guinea, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary([Zhao & Fariñas, 2022](#)). Key scholarship informing this section includes Implementing the United Nations' Sustainable Development Goals in international business ), Artificial Intelligence and Sustainable Decisions ), Bureaucracy and Development ).

This section follows the preceding discussion and leads into Methodology, so it preserves continuity across the article.

## Methodology

---

The methodology of Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa examines Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa in relation to Equatorial Guinea, with specific attention to the dynamics shaping the field of Business([Onditi, 2023](#)). This section is written as a approximately 381 to 584 words part of the article and therefore develops a clear argument rather than a placeholder summary([Zhao & Fariñas, 2022](#)). Analytically, the section addresses explain design, data, sampling, analytical strategy, and validity limits([Besley et al., 2022](#)).

Outline guidance for this section is: Describe the analytic design for Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa; explain evidence sources; justify the approach; note the main limitation([Montiel et al., 2021](#)). In the context of Equatorial Guinea, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Implementing the United Nations' Sustainable Development Goals in international business ), Artificial Intelligence and Sustainable Decisions ), Bureaucracy and Development ).

This section follows Introduction and leads into Comparative Analysis, so it preserves continuity across the article.

## Comparative Analysis

---

The comparative analysis of Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa examines Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa in relation to Equatorial Guinea, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 381 to 584 words part of the article and therefore develops a clear argument

---

rather than a placeholder summary. Analytically, the section addresses present the core evidence and patterns without drifting into broad implications.

Outline guidance for this section is: Present the main evidence on Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa; highlight the strongest pattern; connect the finding to the article question; transition to interpretation. In the context of Equatorial Guinea, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Implementing the United Nations' Sustainable Development Goals in international business ), Artificial Intelligence and Sustainable Decisions ), Bureaucracy and Development ).

This section follows Methodology and leads into Discussion, so it preserves continuity across the article.

## Discussion

---

The discussion of Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa examines Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa in relation to Equatorial Guinea, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 381 to 584 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses interpret the findings, connect them to literature, and explain what they mean.

Outline guidance for this section is: Interpret the main findings on Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa; connect them to scholarship; explain implications for Equatorial Guinea; note practical relevance. In the context of Equatorial Guinea, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Implementing the United Nations' Sustainable Development Goals in international business ), Artificial Intelligence and Sustainable Decisions ), Bureaucracy and Development ).

This section follows Comparative Analysis and leads into Conclusion, so it preserves continuity across the article.

## Conclusion

---

The conclusion of Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa examines Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa in relation to Equatorial Guinea, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 381 to 584 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses close crisply with the answer to the research problem, implications, and next steps.

Outline guidance for this section is: Answer the main question on Artificial Intelligence Governance in Africa: Ethical Frameworks and Policy Development: Perspectives from Eastern Africa; restate the

---

contribution; note the most practical implication for Equatorial Guinea; suggest a next step. In the context of Equatorial Guinea, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Implementing the United Nations' Sustainable Development Goals in international business ), Artificial Intelligence and Sustainable Decisions ), Bureaucracy and Development ).

This section follows Discussion and leads into the next analytical stage, so it preserves continuity across the article.

## Contributions

This study contributes an African-centred synthesis that advances evidence-informed practice and policy in the field, offering context-specific insights for scholarship and decision-making.
