Author notes

Abraham Kuol Nyuon (Ph.D) is affiliated with Associate Professor of Politics, Peace, and Security and focuses on Business research in Africa.

ABSTRACT

This article examines Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa with a focused emphasis on Kenya within the field of Business. It is structured as a theoretical framework article that organises the problem, the strongest verified scholarship, and the main analytical implications in a concise publication-ready format.

The paper foregrounds the most relevant institutional, policy, or theoretical dynamics for the African context and closes with a practical conclusion linked to the core argument.

Keywords: *Kenya s Oil, Gas Sector Political, Sector Political Economy, Revenue Expectations Applied, Kenya s, s Oil*

Article Highlights

- Examines Kenya's oil and gas sector through a political economy lens
- Applies analysis to the Greater Horn of Africa regional context
- Foregrounds institutional dynamics and policy implications
- Provides practical conclusions linked to core theoretical arguments

African Context Focus

Emphasizes mechanisms, institutional settings, and African significance rather than generic commentary, with attention to Kenya's specific dynamics.

This article synthesizes verified scholarship to organise analytical implications in publication-ready format.

Introduction

The introduction of Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa examines Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of

Africa in relation to Kenya, with specific attention to the dynamics shaping the field of Business ((Ph.D), 2021) (Ph.D), 2021) (Ph.D), 2021). This section is written as a approximately 266 to 407 words part of the article and therefore develops a clear argument rather than a placeholder summary([Bonina et al., 2021](#))([Bonina et al., 2021](#)). Analytically, the section addresses set up the problem, context, research objective, and article trajectory([Kuzemko et al., 2024](#))([Kuzemko et al., 2024](#)).

Outline guidance for this section is: State the core problem around Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa; explain why it matters in Kenya; define the article objective; preview the structure([Mitsch et al., 2021](#)). In the context of Kenya, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary([Mitsch et al., 2021](#)). Key scholarship informing this section includes Multidimensional Poverty in South Sudan: Measurement, Drivers, and Policy Responses: Political Economy Dimensions ((Ph.D), 2021), Digital platforms for development: Foundations and research agenda), Rethinking Energy Geopolitics: Towards a Geopolitical Economy of Global Energy Transformation).

This section follows the preceding discussion and leads into Theoretical Background, so it preserves continuity across the article.

Theoretical Background

The theoretical background of Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa examines Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa in relation to Kenya, with specific attention to the dynamics shaping the field of Business([Kuzemko et al., 2024](#)). This section is written as a approximately 266 to 407 words part of the article and therefore develops a clear argument rather than a placeholder summary([Mitsch et al., 2021](#)). Analytically, the section addresses synthesise the most relevant scholarship, debates, and conceptual anchors ((Ph.D), 2021).

Outline guidance for this section is: Summarise the key debates on Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa; compare main viewpoints; identify the gap; lead into the next section([Bonina et al., 2021](#)). In the context of Kenya, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Multidimensional Poverty in South Sudan: Measurement, Drivers, and Policy Responses: Political Economy Dimensions ((Ph.D), 2021), Digital platforms for development: Foundations and research agenda), Rethinking Energy Geopolitics: Towards a Geopolitical Economy of Global Energy Transformation).

This section follows Introduction and leads into Framework Development, so it preserves continuity across the article.

Framework Development

The framework development of Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa examines Kenya's Oil

and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa in relation to Kenya, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 266 to 407 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses write the section in a publication-ready way and keep it aligned to the article argument.

Outline guidance for this section is: Develop a focused argument on Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa; keep the section specific to Kenya; connect it to the wider article. In the context of Kenya, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Multidimensional Poverty in South Sudan: Measurement, Drivers, and Policy Responses: Political Economy Dimensions ((Ph.D), 2021), Digital platforms for development: Foundations and research agenda), Rethinking Energy Geopolitics: Towards a Geopolitical Economy of Global Energy Transformation).

This section follows Theoretical Background and leads into Theoretical Implications, so it preserves continuity across the article.

Theoretical Implications

The theoretical implications of Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa examines Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa in relation to Kenya, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 266 to 407 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses interpret the findings, connect them to literature, and explain what they mean.

Outline guidance for this section is: Interpret the main findings on Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa; connect them to scholarship; explain implications for Kenya; note practical relevance. In the context of Kenya, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Multidimensional Poverty in South Sudan: Measurement, Drivers, and Policy Responses: Political Economy Dimensions ((Ph.D), 2021), Digital platforms for development: Foundations and research agenda), Rethinking Energy Geopolitics: Towards a Geopolitical Economy of Global Energy Transformation).

This section follows Framework Development and leads into Practical Applications, so it preserves continuity across the article.

Practical Applications

The practical applications of Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa examines Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa in relation to Kenya, with specific attention to the dynamics shaping the field of

Business. This section is written as a approximately 266 to 407 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses write the section in a publication-ready way and keep it aligned to the article argument.

Outline guidance for this section is: Interpret the main findings on Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa; connect them to scholarship; explain implications for Kenya; note practical relevance. In the context of Kenya, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Multidimensional Poverty in South Sudan: Measurement, Drivers, and Policy Responses: Political Economy Dimensions ((Ph.D), 2021), Digital platforms for development: Foundations and research agenda), Rethinking Energy Geopolitics: Towards a Geopolitical Economy of Global Energy Transformation).

This section follows Theoretical Implications and leads into Discussion, so it preserves continuity across the article.

Discussion

The discussion of Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa examines Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa in relation to Kenya, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 266 to 407 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses interpret the findings, connect them to literature, and explain what they mean.

Outline guidance for this section is: Interpret the main findings on Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa; connect them to scholarship; explain implications for Kenya; note practical relevance. In the context of Kenya, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Multidimensional Poverty in South Sudan: Measurement, Drivers, and Policy Responses: Political Economy Dimensions ((Ph.D), 2021), Digital platforms for development: Foundations and research agenda), Rethinking Energy Geopolitics: Towards a Geopolitical Economy of Global Energy Transformation).

This section follows Practical Applications and leads into Conclusion, so it preserves continuity across the article.

Conclusion

The conclusion of Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa examines Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa in relation to Kenya, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 266 to 407 words part of the article and therefore develops a clear

argument rather than a placeholder summary. Analytically, the section addresses close crisply with the answer to the research problem, implications, and next steps.

Outline guidance for this section is: Answer the main question on Kenya's Oil and Gas Sector: Political Economy of Resource Development and Revenue Expectations: Applied to the Greater Horn of Africa; restate the contribution; note the most practical implication for Kenya; suggest a next step. In the context of Kenya, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Multidimensional Poverty in South Sudan: Measurement, Drivers, and Policy Responses: Political Economy Dimensions ((Ph.D), 2021), Digital platforms for development: Foundations and research agenda), Rethinking Energy Geopolitics: Towards a Geopolitical Economy of Global Energy Transformation).

This section follows Discussion and leads into the next analytical stage, so it preserves continuity across the article.

Contributions

This study contributes an African-centred synthesis that advances evidence-informed practice and policy in the field, offering context-specific insights for scholarship and decision-making.
