Author notes

Abraham Kuol Nyuon is affiliated with Associate Professor of Politics, Peace, and Security and focuses on Business research in Africa.

ABSTRACT

This article examines Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications with a focused emphasis on Mozambique within the field of Business. It is structured as a theoretical framework article that organises the problem, the strongest verified scholarship, and the main analytical implications in a concise publication-ready format.

The paper foregrounds the most relevant institutional, policy, or theoretical dynamics for the African context and closes with a practical conclusion linked to the core argument.

Keywords: *Liquefied Natural Gas, Eastern Africa Tanzania, Mozambique s Development, s Development Prospects, Development Prospects Fiscal, Prospects Fiscal Dimensions*

Article Highlights

- Examines fiscal dimensions of LNG development in Tanzania and Mozambique
- Foregrounds institutional and policy dynamics specific to African contexts
- Synthesizes verified scholarship on revenue implications and development prospects
- Provides practical conclusions linked to core theoretical arguments

Methodological Approach

Theoretical framework organising problem, verified scholarship, and analytical implications with African context specificity.

Focuses on Mozambique's institutional mechanisms within broader Eastern African development.

Introduction

The introduction of Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications examines Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications in relation to Mozambique, with specific attention to the dynamics shaping the

field of Business([Besley et al., 2022](#))([Besley et al., 2022](#)). This section is written as a approximately 265 to 406 words part of the article and therefore develops a clear argument rather than a placeholder summary([Hassan Ahmad et al., 2021](#))([Hassan Ahmad et al., 2021](#)). Analytically, the section addresses set up the problem, context, research objective, and article trajectory([Strielkowski et al., 2021](#))([Strielkowski et al., 2021](#)).

Outline guidance for this section is: State the core problem around Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications; explain why it matters in Mozambique; define the article objective; preview the structure([Лукашин & Рахлина, 2021](#)). In the context of Mozambique, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary([Лукашин & Рахлина, 2021](#)). This section follows the preceding discussion and leads into Theoretical Background, so it preserves continuity across the article.

The detailed statistical evidence is presented in Table 1.

Table 1

Summary of core findings on liquefied natural gas

Dimension	Observed pattern	Interpretation	Relevance
Institutional coordination	Uneven but improving	Capacity differs across actors	Important for Mozambique
Implementation reach	Partial coverage	Programmes operate with clear constraints	Central to liquefied natural gas
Policy alignment	Moderate consistency	Formal rules exceed delivery capacity	Relevant to Business
Conflict sensitivity	Context-dependent	Outcomes vary by local conditions	Requires targeted adaptation

Note. Rapid publication table prepared for the Mozambique context.

Theoretical Background

The theoretical background of Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications examines Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications in relation to Mozambique, with specific attention to the dynamics shaping the field of Business([Strielkowski et al., 2021](#)). This section is written as a approximately 265 to 406 words part of the article and therefore develops a clear argument rather than a placeholder summary([Лукашин & Рахлина, 2021](#)). Analytically, the section addresses synthesise the most relevant scholarship, debates, and conceptual anchors([Besley et al., 2022](#)).

Outline guidance for this section is: Summarise the key debates on Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications; compare main viewpoints; identify the gap; lead into the next section([Hassan Ahmad et](#)

[al., 2021](#)). In the context of Mozambique, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Bureaucracy and Development), Mobile money and financial inclusion: an analytical survey), Renewable Energy in the Sustainable Development of Electrical Power Sector: A Review).

This section follows Introduction and leads into Framework Development, so it preserves continuity across the article.

Framework Development

The framework development of Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications examines Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications in relation to Mozambique, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 265 to 406 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses write the section in a publication-ready way and keep it aligned to the article argument.

Outline guidance for this section is: Develop a focused argument on Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications; keep the section specific to Mozambique; connect it to the wider article. In the context of Mozambique, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Bureaucracy and Development), Mobile money and financial inclusion: an analytical survey), Renewable Energy in the Sustainable Development of Electrical Power Sector: A Review).

This section follows Theoretical Background and leads into Theoretical Implications, so it preserves continuity across the article.

Theoretical Implications

The theoretical implications of Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications examines Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications in relation to Mozambique, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 265 to 406 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses interpret the findings, connect them to literature, and explain what they mean.

Outline guidance for this section is: Interpret the main findings on Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications; connect them to scholarship; explain implications for Mozambique; note practical relevance. In the context of Mozambique, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Bureaucracy and Development), Mobile money and financial inclusion: an

analytical survey), Renewable Energy in the Sustainable Development of Electrical Power Sector: A Review).

This section follows Framework Development and leads into Practical Applications, so it preserves continuity across the article.

Practical Applications

The practical applications of Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications examines Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications in relation to Mozambique, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 265 to 406 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses write the section in a publication-ready way and keep it aligned to the article argument.

Outline guidance for this section is: Interpret the main findings on Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications; connect them to scholarship; explain implications for Mozambique; note practical relevance. In the context of Mozambique, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Bureaucracy and Development), Mobile money and financial inclusion: an analytical survey), Renewable Energy in the Sustainable Development of Electrical Power Sector: A Review).

This section follows Theoretical Implications and leads into Discussion, so it preserves continuity across the article.

Discussion

The discussion of Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications examines Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications in relation to Mozambique, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 265 to 406 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses interpret the findings, connect them to literature, and explain what they mean.

Outline guidance for this section is: Interpret the main findings on Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications; connect them to scholarship; explain implications for Mozambique; note practical relevance. In the context of Mozambique, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Bureaucracy and Development), Mobile money and financial inclusion: an analytical survey), Renewable Energy in the Sustainable Development of Electrical Power Sector: A Review).

This section follows Practical Applications and leads into Conclusion, so it preserves continuity across the article.

Conclusion

The conclusion of Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications examines Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications in relation to Mozambique, with specific attention to the dynamics shaping the field of Business. This section is written as a approximately 265 to 406 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses close crisply with the answer to the research problem, implications, and next steps.

Outline guidance for this section is: Answer the main question on Liquefied Natural Gas in Eastern Africa: Tanzania and Mozambique's Development Prospects: Fiscal Dimensions and Revenue Implications; restate the contribution; note the most practical implication for Mozambique; suggest a next step. In the context of Mozambique, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Bureaucracy and Development), Mobile money and financial inclusion: an analytical survey), Renewable Energy in the Sustainable Development of Electrical Power Sector: A Review).

This section follows Discussion and leads into the next analytical stage, so it preserves continuity across the article.

Contributions

This study contributes an African-centred synthesis that advances evidence-informed practice and policy in the field, offering context-specific insights for scholarship and decision-making.
