Author notes

Ismael El-Shazly is affiliated with Theodor Bilharz Research Institute (TBRI) and focuses on African Studies research in Africa.

Hussein Abdel-Raouf is affiliated with Department of Interdisciplinary Studies, Fayoum University and focuses on African Studies research in Africa.

Amira Al-Nahas is affiliated with Department of Research, Fayoum University and focuses on African Studies research in Africa.

Faten El-Mansour is affiliated with Tanta University and focuses on African Studies research in Africa.

Abstract

Egypt is a significant hub for AI research and development in Africa, with growing concerns regarding ethical data governance. A comprehensive literature review and expert interviews to analyse existing policies and practices. Egypt needs more robust ethical guidelines for AI development that consider societal impacts and privacy rights. Develop and enforce comprehensive national data ethics codes to align with international standards.

Keywords: *Africanization, Ethical AI, Governance Models, Cultural Sensitivity, Algorithmic Accountability, Digital Divide, Human Rights Cybersecurity*

ABSTRACT-ONLY PUBLICATION

This is an abstract-only publication. The complete research paper with full methodology, results, discussion, and references is available upon request.
