Efua Acheampong is affiliated with University of Professional Studies, Accra (UPSA) and focuses on African Studies research in Africa.

Frimpong Appiah is affiliated with Department of Research, University of Cape Coast and focuses on African Studies research in Africa.

Yaw Gyampo is affiliated with Ashesi University and focuses on African Studies research in Africa.

Kofi Boakye is affiliated with University of Professional Studies, Accra (UPSA) and focuses on African Studies research in Africa.

Abstract

Land reform in East Africa is a complex socio-economic phenomenon with significant implications for agricultural productivity and rural development. The study employs a qualitative approach to analyse case studies from East Africa, with an emphasis on policy documents and interviews with stakeholders. The socio-economic landscape in Ghanaian contexts post-reform is characterized by a mix of benefits and challenges, necessitating nuanced policy responses. Policy makers should prioritise fostering inclusive land governance mechanisms that balance traditional communal practices with modern legal frameworks.
