Ngugi Wa Thogonyo is affiliated with International Centre of Insect Physiology and Ecology (ICIPE), Nairobi and focuses on African Studies research in Africa.

Gathuru Karanja is affiliated with Department of Advanced Studies, Strathmore University and focuses on African Studies research in Africa.

Kisongi Mungai is affiliated with International Centre of Insect Physiology and Ecology (ICIPE), Nairobi and focuses on African Studies research in Africa.

Mbithi Ndiku is affiliated with Department of Research, Technical University of Kenya and focuses on African Studies research in Africa.

Abstract

This commentary examines the impact of digital agricultural training workshops on knowledge acquisition and farm productivity among young farmers in Kenyan villages. A qualitative approach was employed to analyse participant feedback and observed outcomes from digital training sessions conducted in Kenyan villages. The digital training workshops significantly contributed to the development of agricultural skills among young farmers, thereby boosting their productivity and sustainability efforts. Further research should explore scalability and cost-effectiveness of these interventions across diverse geographic and socio-economic contexts.
