Fathy Ahmed is affiliated with Department of Research, Agricultural Research Center (ARC), Giza and focuses on African Studies research in Africa.

Abdelfattah Elsayed is affiliated with Helwan University and focuses on African Studies research in Africa.

Abstract

Youth entrepreneurship programmes in Cairo aim to foster employment opportunities and financial independence among young people. A mixed-method approach combining surveys with interviews to assess programme impact on youth participants. Participants reported a significant increase in entrepreneurial skills from 60% to 85%, translating into higher employment rates among programme beneficiaries ($n=200$). The programmes have successfully enhanced young people's entrepreneurial capabilities, contributing to their economic stability and future prospects. Continue monitoring and refining the programmes to ensure sustained positive outcomes for youth participants.
