Khaled Bouguerra is affiliated with Department of Interdisciplinary Studies, University of Annaba 2 and focuses on Law research in Africa.

Ahmed Belhadj is affiliated with Department of Advanced Studies, University of Science and Technology Houari Boumediene (USTHB) and focuses on Law research in Africa.

Abdelkader Mokhtar is affiliated with University of Science and Technology Houari Boumediene (USTHB) and focuses on Law research in Africa.

Layla Bencherif is affiliated with National Agency for Research Development in Health (ANDRS) and focuses on Law research in Africa.

Abstract

Algeria has experienced significant political instability since gaining independence in , with frequent changes in government and governance structures. The analysis will draw on existing literature and comparative studies, employing critical discourse analysis to interpret constitutional documents and legal texts. Theoretical insights suggest that the effectiveness of constitutional review processes in Algeria depends heavily on the interplay between legislative bodies and judicial oversight. Enhancing transparency and public participation in the constitutional review process could significantly improve its democratic potential.
