Abstract

Ghana's constitutional review process has been a focal point for understanding democratic consolidation in Africa. The analysis employs a mixed-methods approach, integrating qualitative textual data from the constitutional document and quantitative thematic coding of public opinion surveys conducted post-review. The constitutional review process has facilitated enhanced citizen engagement and policy alignment with democratic principles. Future reviews should prioritise ongoing public consultation mechanisms to ensure broader representation of societal interests.

Keywords: *Sub-Saharan, constitutionalism, democracy, governance, federalism, decentralization, participatory democracy*
