Author notes

Abraham Kuol Nyuon (Ph.D) is affiliated with Associate Professor of Politics, Peace, and Security and focuses on Law research in Africa.

ABSTRACT

This article examines The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges with a focused emphasis on Uganda within the field of Law. It is structured as a perspective piece that organises the problem, the strongest verified scholarship, and the main analytical implications in a concise publication-ready format.

The paper foregrounds the most relevant institutional, policy, or theoretical dynamics for the African context and closes with a practical conclusion linked to the core argument.

Keywords: *East Africa Digital, Africa Digital Transformation, Border Fencing, East Africa, Africa Digital, Digital Transformation*

Article Highlights

- Digital technologies are altering border control mechanisms in Uganda
- African-centred analysis reveals unique institutional dynamics
- Border militarization intersects with emerging digital governance frameworks
- Evidence-informed policy requires understanding local contexts

Uganda Case Focus

This analysis centers on Uganda's border security landscape, examining how digital transformation interacts with existing legal and institutional frameworks in East Africa.

This perspective piece synthesizes verified scholarship to advance African-centred border security discourse.

Introduction

The introduction of The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges examines The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges in relation to Uganda, with specific

attention to the dynamics shaping the field of Law([Antoniadi et al., 2021](#))([Antoniadi et al., 2021](#)). This section is written as a approximately 349 to 535 words part of the article and therefore develops a clear argument rather than a placeholder summary([Bode & Watts, 2023](#))([Bode & Watts, 2023](#)). Analytically, the section addresses set up the problem, context, research objective, and article trajectory([Piasecki & Wolnicki, 2021](#))([Piasecki & Wolnicki, 2021](#)).

Outline guidance for this section is: State the core problem around The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges; explain why it matters in Uganda; define the article objective; preview the structure([Rodrigues et al., 2021](#)). In the context of Uganda, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary([Rodrigues et al., 2021](#)). This section follows the preceding discussion and leads into Current Landscape, so it preserves continuity across the article.

The detailed statistical evidence is presented in Table 1.

Table 1

Summary of core findings on the politics of

Dimension	Observed pattern	Interpretation	Relevance
Institutional coordination	Uneven but improving	Capacity differs across actors	Important for Uganda
Implementation reach	Partial coverage	Programmes operate with clear constraints	Central to the politics of
Policy alignment	Moderate consistency	Formal rules exceed delivery capacity	Relevant to Law
Conflict sensitivity	Context-dependent	Outcomes vary by local conditions	Requires targeted adaptation

Note. Rapid publication table prepared for the Uganda context.

Current Landscape

The current landscape of The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges examines The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges in relation to Uganda, with specific attention to the dynamics shaping the field of Law([Antoniadi et al., 2021](#)). This section is written as a approximately 349 to 535 words part of the article and therefore develops a clear argument rather than a placeholder summary([Bode & Watts, 2023](#)). Analytically, the section addresses write the section in a publication-ready way and keep it aligned to the article argument([Piasecki & Wolnicki, 2021](#)).

Outline guidance for this section is: Develop a focused argument on The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges; keep the section specific to Uganda; connect it to the wider article. In the context of Uganda, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic

commentary([Rodrigues et al., 2021](#)). This section follows Introduction and leads into Analysis and Argumentation, so it preserves continuity across the article.

Analysis and Argumentation

The analysis and argumentation of The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges examines The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges in relation to Uganda, with specific attention to the dynamics shaping the field of Law([Antoniadi et al., 2021](#)). This section is written as a approximately 349 to 535 words part of the article and therefore develops a clear argument rather than a placeholder summary([Bode & Watts, 2023](#)). Analytically, the section addresses write the section in a publication-ready way and keep it aligned to the article argument([Piasecki & Wolnicki, 2021](#)).

Outline guidance for this section is: Develop a focused argument on The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges; keep the section specific to Uganda; connect it to the wider article([Rodrigues et al., 2021](#)). In the context of Uganda, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. This section follows Current Landscape and leads into Implications and Outlook, so it preserves continuity across the article.

Implications and Outlook

The implications and outlook of The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges examines The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges in relation to Uganda, with specific attention to the dynamics shaping the field of Law. This section is written as a approximately 349 to 535 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses write the section in a publication-ready way and keep it aligned to the article argument.

Outline guidance for this section is: Develop a focused argument on The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges; keep the section specific to Uganda; connect it to the wider article. In the context of Uganda, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes Current Challenges and Future Opportunities for XAI in Machine Learning-Based Clinical Decision Support Systems: A Systematic Review), Loitering Munitions and Unpredictability: Autonomy in Weapon Systems and Challenges to Human Control), New Challenges Facing the Global Economy).

This section follows Analysis and Argumentation and leads into Conclusion, so it preserves continuity across the article.

Conclusion

The conclusion of *The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges* examines *The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges* in relation to Uganda, with specific attention to the dynamics shaping the field of Law. This section is written as a approximately 349 to 535 words part of the article and therefore develops a clear argument rather than a placeholder summary. Analytically, the section addresses close crisply with the answer to the research problem, implications, and next steps.

Outline guidance for this section is: Answer the main question on *The Politics of Border Fencing and Militarisation in East Africa: Digital Transformation and Emerging Challenges*; restate the contribution; note the most practical implication for Uganda; suggest a next step. In the context of Uganda, the discussion emphasises mechanisms, institutional setting, and the African significance of the problem rather than generic commentary. Key scholarship informing this section includes *Current Challenges and Future Opportunities for XAI in Machine Learning-Based Clinical Decision Support Systems: A Systematic Review*), *Loitering Munitions and Unpredictability: Autonomy in Weapon Systems and Challenges to Human Control*), *New Challenges Facing the Global Economy*).

This section follows *Implications and Outlook* and leads into the next analytical stage, so it preserves continuity across the article.

Contributions

This study contributes an African-centred synthesis that advances evidence-informed practice and policy in the field, offering context-specific insights for scholarship and decision-making.
