Author notes

Odhiambo Kibet is affiliated with Technical University of Kenya and focuses on African Studies research in Africa.

Macharia Kamau is affiliated with Kenya Medical Research Institute (KEMRI) and focuses on African Studies research in Africa.

Wambugu Gitonga is affiliated with Egerton University and focuses on African Studies research in Africa.

Kinyanjui Kimutai is affiliated with Department of Advanced Studies, Technical University of Kenya and focuses on African Studies research in Africa.

Abstract

Afrofuturism is a contemporary cultural movement that explores African identity through science fiction and speculative narratives. The approach draws on existing scholarly works but does not include empirical data collection or analysis. This commentary underscores the significance of Afrofuturism for understanding African futures, particularly within Kenya's context. Further research should explore how specific Afrofuturist works impact public discourse on African development and identity.

Keywords: *African diaspora, Afrocentricity, Futurism, Speculative fiction, Cultural syncretism, Pan-Africanism, Science studies*
