Author notes

Keremie Jean is affiliated with Department of Advanced Studies, Seychelles Centre for Indigenous Knowledge and focuses on Psychology research in Africa.

Dewa Muhimead is affiliated with Department of Research, Seychelles Medical Research Institute and focuses on Psychology research in Africa.

Mamy Aziza is affiliated with Department of Research, Seychelles Centre for Indigenous Knowledge and focuses on Psychology research in Africa.

Vivian Ndiaye is affiliated with Department of Interdisciplinary Studies, Seychelles Technical University and focuses on Psychology research in Africa.

Abstract

Youth engagement in Seychelles' psychological landscape is a burgeoning field of study within African psychology. A systematic review and synthesis of existing literature will guide the development of this theoretical perspective. The theoretical framework developed here provides a nuanced understanding of youth psychology in Seychelles and offers insights for future research and policy development. Future studies should explore the intersectionality of factors influencing youth engagement, such as cultural norms and socio-economic disparities.

Keywords: *African psychology, developmental psychology, psychological anthropology, youth culture studies, social identity theory, qualitative research methods, cultural competence*
