Author notes

Nkam Nguetack is affiliated with University of Buea and focuses on African Studies research in Africa.

Chiracoumungu Anguel is affiliated with Department of Advanced Studies, University of Buea and focuses on African Studies research in Africa.

Eto Mokili is affiliated with Department of Interdisciplinary Studies, University of Yaoundé I and focuses on African Studies research in Africa.

Yabas Djekaloumba is affiliated with Department of Research, University of Yaoundé I and focuses on African Studies research in Africa.

Abstract

Digital inclusion refers to the process of ensuring that all individuals have access to digital technologies and can utilise them effectively for education, employment, health care, and other essential services. N/A This theoretical framework highlights the importance of addressing digital divide through targeted interventions that consider socio-economic disparities. Policy makers should prioritise investments in broadband infrastructure and subsidize internet access costs for underserved communities.

Keywords: *Cameroonian, Digital Divide, Access Studies, Social Capital, Participatory Development, Community Empowerment, Technological Barriers*

ABSTRACT-ONLY PUBLICATION

This is an abstract-only publication. The complete research paper with full methodology, results, discussion, and references is available upon request.
