Olufisayo Idowu is affiliated with Nigerian Institute of Advanced Legal Studies (NIALS) and focuses on African Studies research in Africa.

Daniel Adekunlejo is affiliated with Department of Research, University of Abuja and focuses on African Studies research in Africa.

Abstract

Mobile Medics is a theoretical framework examining the adoption rates of a sexual health education app among Senegalese adolescents in Nigeria. No empirical data are used; instead, a conceptual framework is developed based on existing literature and qualitative insights. The theoretical framework highlights the importance of addressing knowledge gaps through targeted interventions in underserved areas. Future research should focus on developing culturally tailored educational content to increase uptake and reduce knowledge gaps among all socio-economic groups.
