| Abstract

This study addresses a current research gap in Agriculture concerning Integrated Farming Systems for Resource-Poor Farmers in Benin in Benin. The objective is to clarify key debates, identify practical implications, and outline a focused agenda for scholarship and policy. A structured review of relevant literature was conducted, with thematic synthesis of key findings. The analysis indicates persistent structural constraints alongside emerging local innovations; however, evidence remains uneven across contexts and sectors. The paper argues for context-specific approaches and stronger empirical foundations in future research. Stakeholders should prioritise inclusive, locally grounded strategies and improve data transparency. Integrated Farming Systems for Resource-Poor Farmers in Benin, Benin, Africa, Agriculture, systematic review This structured abstract provides a standardised summary to support rapid screening, indexing, and assessment of scholarly contribution.
