Author notes

Dr Marilyn Smith is affiliated with Department of Mechanical Engineering, Rwanda Environment Management Authority (REMA) and focuses on Engineering research in Africa.

Conor Davies is affiliated with University of Rwanda and focuses on Engineering research in Africa.

Miss Lynda Smith is affiliated with Rwanda Environment Management Authority (REMA) and focuses on Engineering research in Africa.

Georgina Johnson is affiliated with University of Rwanda and focuses on Engineering research in Africa.

Abstract

This study addresses a current research gap in Engineering concerning The Role of Local Communities in Engineering Initiatives in West Africa in Rwanda. The objective is to clarify key debates, identify practical implications, and outline a focused agenda for scholarship and policy. A policy analysis was undertaken using national and regional policy documents relevant to the study scope. The analysis indicates persistent structural constraints alongside emerging local innovations; however, evidence remains uneven across contexts and sectors. The paper argues for context-specific approaches and stronger empirical foundations in future research. Stakeholders should prioritise inclusive, locally grounded strategies and improve data transparency. The Role of Local Communities in Engineering Initiatives in West Africa, Rwanda, Africa, Engineering, policy brief This structured abstract provides a standardised summary to support rapid screening, indexing, and assessment of scholarly contribution.

Keywords: *The Role of Local Communities in Engineering Initiatives in West Africa, Rwanda, Africa, Engineering*
