# | Abstract

This study addresses a current research gap in African Studies concerning Entrepreneurship Ecosystems and Innovation Hubs in East Africa in Nigeria. The objective is to clarify key debates, identify practical implications, and outline a focused agenda for scholarship and policy. A mixed-methods design was used, combining survey and interview data collected over the study period. The analysis indicates persistent structural constraints alongside emerging local innovations; however, evidence remains uneven across contexts and sectors. The paper argues for context-specific approaches and stronger empirical foundations in future research. Stakeholders should prioritise inclusive, locally grounded strategies and improve data transparency. Entrepreneurship Ecosystems and Innovation Hubs in East Africa, Nigeria, Africa, African Studies, original research This structured abstract provides a standardised summary to support rapid screening, indexing, and assessment of scholarly contribution.
