Author notes

Mr Philip Smith is affiliated with National Agricultural Research Organisation (NARO) and focuses on Engineering research in Africa.

Alison Stevens is affiliated with Makerere University Business School (MUBS) and focuses on Engineering research in Africa.

Abstract

This study addresses a current research gap in Engineering concerning Gender Perspectives on Engineering in North Africa in Uganda. The objective is to clarify key debates, identify practical implications, and outline a focused agenda for scholarship and policy. A structured review of relevant literature was conducted, with thematic synthesis of key findings. The analysis indicates persistent structural constraints alongside emerging local innovations; however, evidence remains uneven across contexts and sectors. The paper argues for context-specific approaches and stronger empirical foundations in future research. Stakeholders should prioritise inclusive, locally grounded strategies and improve data transparency. Gender Perspectives on Engineering in North Africa, Uganda, Africa, Engineering, meta analysis This structured abstract provides a standardised summary to support rapid screening, indexing, and assessment of scholarly contribution.

Keywords: *Gender Perspectives on Engineering in North Africa, Uganda, Africa, Engineering*
