Author notes

Dr Alan Butler is affiliated with Department of Interdisciplinary Studies, Nelson Mandela African Institution of Science and Technology (NM-AIST), Arusha and focuses on African Studies research in Africa.

Thomas Marsh is affiliated with Ardhi University, Dar es Salaam and focuses on African Studies research in Africa.

Abstract

This study addresses a current research gap in African Studies concerning Health Systems Resilience in the Face of Epidemics: Lessons from Africa in Tanzania. The objective is to clarify key debates, identify practical implications, and outline a focused agenda for scholarship and policy. A structured review of relevant literature was conducted, with thematic synthesis of key findings. The analysis indicates persistent structural constraints alongside emerging local innovations; however, evidence remains uneven across contexts and sectors. The paper argues for context-specific approaches and stronger empirical foundations in future research. Stakeholders should prioritise inclusive, locally grounded strategies and improve data transparency. Health Systems Resilience in the Face of Epidemics: Lessons from Africa, Tanzania, Africa, African Studies, scoping review This structured abstract provides a standardised summary to support rapid screening, indexing, and assessment of scholarly contribution.
