Author notes

Hannah Byrne is affiliated with Egerton University and focuses on African Studies research in Africa.

Danielle Begum is affiliated with Strathmore University and focuses on African Studies research in Africa.

Mr Luke Moore is affiliated with Strathmore University and focuses on African Studies research in Africa.

Ronald Evans-Parry is affiliated with Department of Interdisciplinary Studies, Jomo Kenyatta University of Agriculture and Technology (JKUAT) and focuses on African Studies research in Africa.

Abstract

This study addresses a current research gap in African Studies concerning The Ethics of AI and Data Governance in African Societies in Kenya. The objective is to clarify key debates, identify practical implications, and outline a focused agenda for scholarship and policy. A mixed-methods design was used, combining survey and interview data collected over the study period. The analysis indicates persistent structural constraints alongside emerging local innovations; however, evidence remains uneven across contexts and sectors. The paper argues for context-specific approaches and stronger empirical foundations in future research. Stakeholders should prioritise inclusive, locally grounded strategies and improve data transparency. The Ethics of AI and Data Governance in African Societies, Kenya, Africa, African Studies, original research This structured abstract provides a standardised summary to support rapid screening, indexing, and assessment of scholarly contribution.

Keywords: *The Ethics of AI and Data Governance in African Societies, Kenya, Africa, African Studies*
