Abstract

Theoretical Evolution in Moroccan African Philosophy Post-Colonial Context This article employs a conceptual analysis approach to examine existing literature on Moroccan African philosophy. It does not involve empirical research or data collection. The theoretical framework identified in this article provides a nuanced understanding of how Moroccan philosophers have responded to colonial legacies and contemporary challenges within their own unique intellectual environment. Further research could explore specific case studies or historical events to illuminate the practical implications of these theoretical insights for Moroccan society.

Keywords: *Sub-Saharan, Pan-Africanism, Decolonization, Intersectionality, Afrofuturism, Ethnography, Hermeneutics*

ABSTRACT-ONLY PUBLICATION

This is an abstract-only publication. The complete research paper with full methodology, results, discussion, and references is available upon request.
