Author notes

Tracy Moore is affiliated with Department of Pediatrics, University of Bamako (consolidated) and focuses on Medicine research in Africa.

Dr Charlene Robson is affiliated with Department of Clinical Research, USTTB Bamako (University of Sciences, Techniques and Technologies) and focuses on Medicine research in Africa.

Raymond King is affiliated with Department of Clinical Research, University of Bamako (consolidated) and focuses on Medicine research in Africa.

Abstract

This study addresses a current research gap in Medicine concerning Sustainable Approaches to Medicine in Southern Africa in Mali. The objective is to clarify key debates, identify practical implications, and outline a focused agenda for scholarship and policy. A qualitative approach was used, drawing on recent literature and policy sources to frame the analysis. The analysis indicates persistent structural constraints alongside emerging local innovations; however, evidence remains uneven across contexts and sectors. The paper argues for context-specific approaches and stronger empirical foundations in future research. Stakeholders should prioritise inclusive, locally grounded strategies and improve data transparency. Sustainable Approaches to Medicine in Southern Africa, Mali, Africa, Medicine, working paper This structured abstract provides a standardised summary to support rapid screening, indexing, and assessment of scholarly contribution.

Keywords: *Sustainable Approaches to Medicine in Southern Africa, Mali, Africa, Medicine*
