Author notes

Ms Kayleigh Middleton is affiliated with Mulungushi University and focuses on Medicine research in Africa.

Claire Williams is affiliated with Department of Surgery, Copperbelt University, Kitwe and focuses on Medicine research in Africa.

Helen Wallace is affiliated with Department of Public Health, Mulungushi University and focuses on Medicine research in Africa.

Susan Lee is affiliated with University of Zambia, Lusaka and focuses on Medicine research in Africa.

Abstract

This study addresses a current research gap in Medicine concerning Youth Perspectives on Medicine Futures in Africa in Zambia. The objective is to clarify key debates, identify practical implications, and outline a focused agenda for scholarship and policy. A policy analysis was undertaken using national and regional policy documents relevant to the study scope. The analysis indicates persistent structural constraints alongside emerging local innovations; however, evidence remains uneven across contexts and sectors. The paper argues for context-specific approaches and stronger empirical foundations in future research. Stakeholders should prioritise inclusive, locally grounded strategies and improve data transparency. Youth Perspectives on Medicine Futures in Africa, Zambia, Africa, Medicine, policy brief This structured abstract provides a standardised summary to support rapid screening, indexing, and assessment of scholarly contribution.

Keywords: *Youth Perspectives on Medicine Futures in Africa, Zambia, Africa, Medicine*
