Abstract

Angola has undergone significant constitutional reform since independence in , with multiple reviews aimed at consolidating democratic practices. Theoretical analysis and literature review will be employed to explore existing legal reforms and their effects on political stability and governance. This framework elucidates how constitutional review processes can facilitate democratic consolidation through legal mechanisms aimed at improving governance and accountability. Further research should focus on assessing long-term impacts of these reforms and exploring potential areas for improvement in future reviews.

Keywords: *Angolan, Constitutionalism, Democratic Consolidation, Legal Theory, Political Institutions, Legal Pluralism, Comparative Constitutional Law*
